

Nu-Trap™

Grease Trap Treatment - Drain Maintenance

Description

Nu-Trap™ is a grease trap treatment for drain maintenance without VOC's. Ready to use bacterial formulation that eliminates odors and quickly biodegrades fat accumulations and other organic residues in grease traps and connected pipes. Ensures smooth flow in drains. **FOR PROFESSIONAL USE ONLY.**

Benefits

- Reduces grease accumulations and the need to empty grease traps as often.
- Reduces the risk of conduits getting blocked.
- Reduces unpleasant odors.

pH 7

Directions

Grease trap: Use manually or with an automated micro-aeration system. Pour 20 oz/250 gal per day. Consult an InnuScience representative for more information on equipment and dosages.

Drains: Pour 4 oz into each drain to be treated, once a day for 3 consecutive days or until odor is eliminated.

Preventive treatment: Pour 4 oz into each drain once every week. For maximum performance, do not let water circulate in the pipes for several hours.

- Consult an InnuScience representative for more information on the dilutions, dosages or equipment to be used according to your needs.
- Consult a representative about our specialized training.

Dilution Guidelines

Grease Traps	20 oz	600 ml
Drains	4 oz/16 ft of drain pipes + 16 oz of water as needed	120 ml of drain pipes + 475 ml of water as needed
